FRENCH BRAID

Collection

Inspired by a fusion of French provincial elements paired back with a '70s Italian flair, the French Braid collection by Sasha Bikoff tempers its modern silhouettes with timeless details. An elegantly braided perimeter surrounds the softly curved edges of the frames, allowing each facet to flow into the next like the seaworn cliffs of Normandy. Shown with bold sunset orange upholstery, the vivid hue and structured cushions nod to the glamor and dynamism of the Milanese current of "Bel Design."

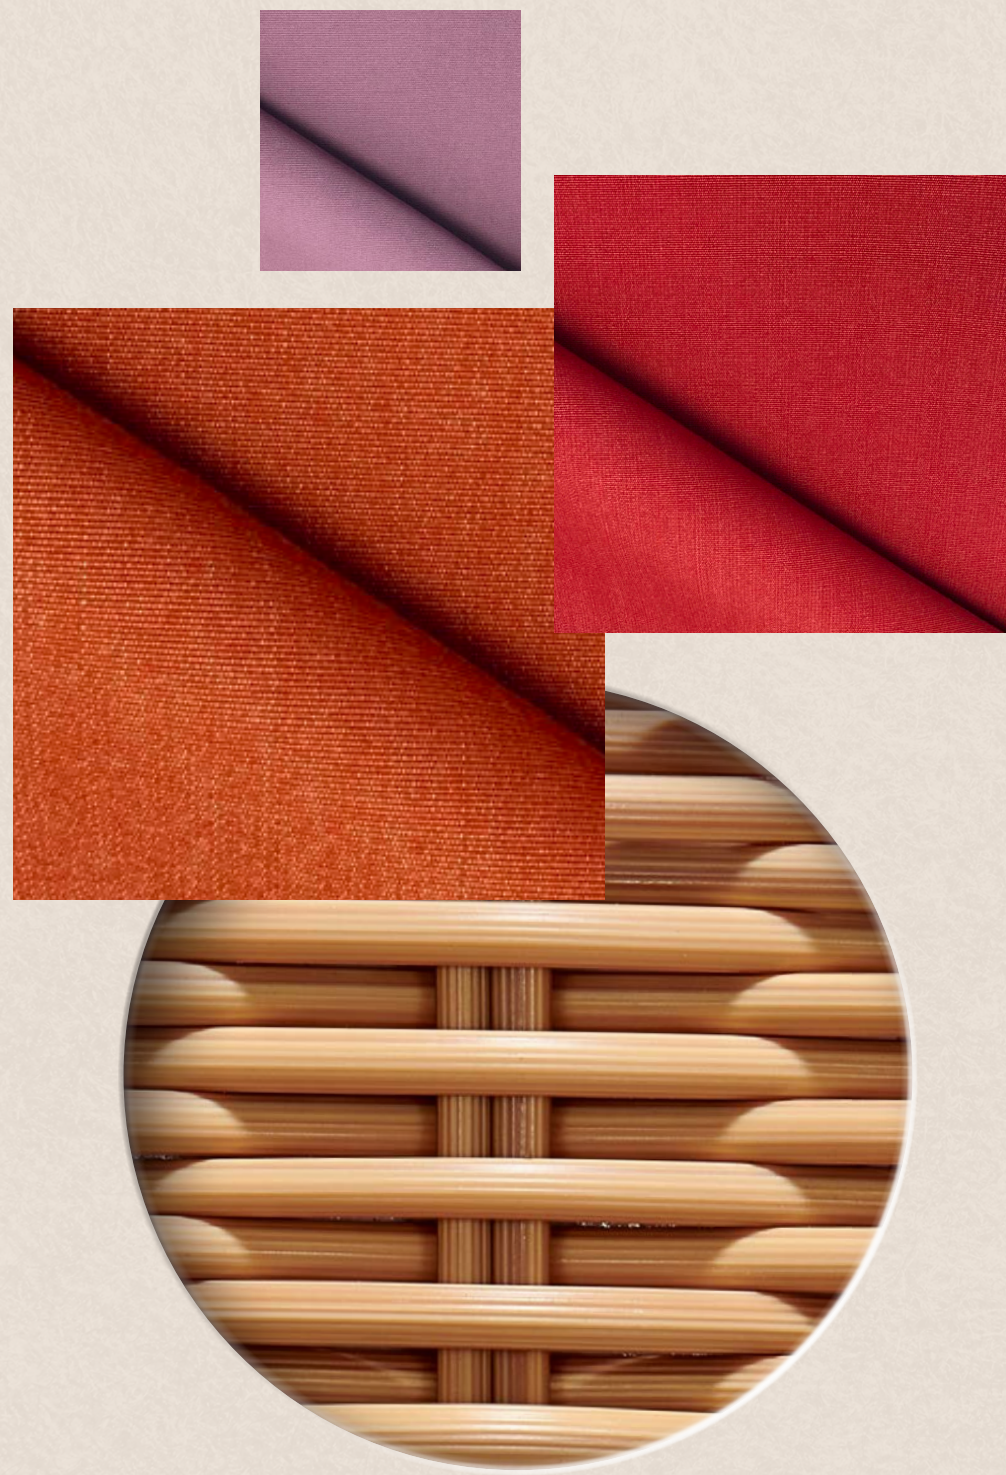

This curated collection features an intimate number of high-design pieces including a lounge chair, sofa, and side table, as well as a domed hanging lounge inspired by the abundant shape of a pomegranate, which she affectionately calls "la pome pome."
