Bistro Outdoor Collection

Walters

Bistro Outdoor.

Walters' Bistro Collection balances heritage and function, drawing inspiration from the iconic cafés of Paris and constructed with the most durable modern materials.

At the center of the collection are the French bistro chairs, distinguished by their graceful curved backs and sturdy frames—an homage to the timeless chairs seen lining Parisian boulevards. Reimagined for modern living, our bistro collection is hand-woven in resilient all-weather resin, available in a selection of vibrant colors that bring a lively note to indoor or outdoor settings.

Our standard weave patterns and colorways offer numerous possibilities, or inquire about special order colors or alternate patterns to create a truly bespoke look.

Customizations.

We offer a wide variety of resin colors in our standard assortment (PG. 12), which can be woven in any of our standard patterns or customized to match your custom example pattern.

When making custom selections, be sure to specify colors in order of priority. For example, the below weaves use the **SAME COLORS**, in a **DIFFERENT ORDER**.

Weave D - Combo 25
